A \$ 25.00 permit fee is required for any new driveway installed within the corporate limits of the City of Covington. This permit entitles the developer to cross the municipal right - of - way and connect to the street. Should any drainage culverts, pipes, etc. be required, the Street Division of the Covington Public Works will aid and assist in the sizing of these culverts. Maintenance of the driveway and culverts remain the responsibility of the property owner , not the City of Covington.
